Definition

PRIVATIZATION -n– Substituting private thieves for public ones.

Macro: It’s Mafia and National Chamber of Commerce, corporate execs disgracing mendacity’s higher concepts.

Micro: Retarded Elmo, retained by the private trash company, gets half his former city salary and no benefits.

There’s more. Still has to kick back to his uncle, the mayor. Also, promise GOP vote to death.

Moral: If you find a genuinely little, defenseless man, he must be fucked raw. Distasteful to some, but required for elevating the course of human events.
